Fullstack Developer | MERN Stack | PERN Stack
Build a responsive and high performance web applications

CAREER SUMMARY

Full Stack Developer with hands-on experience building responsive, scalable, and high-performance web applications using React.js, Next.js, Node.js, and Express.js. Experienced in developing intuitive user interfaces, RESTful APIs, database-driven applications, and third-party integrations. Skilled in TypeScript, modern UI libraries, state management, and performance optimization, with a strong focus on clean code, maintainable architecture, and seamless user experiences. Comfortable working across both frontend and backend environments, integrating external services, designing reusable components, and continuously improving application performance, code quality, and development practices.

KEY SKILLS

Frontend Core
Next.js | React.js | Vue.js | TypeScript | JavaScript | HTML | CSS | Redux | Zustand | React Hook Form | Zod | AJAX | jQuery
UI Libraries & CSS Frameworks
Material UI | Shadcn UI | Syncfusion | Tailwind CSS | Bootstrap | GSAP | Recharts | TanStack React Table
Backend Core
Node.js | Express.js | MVC | REST API | GraphQL | Socket.io | Stripe
Databases & ORM
SQL | NoSQL | MongoDB | Neon | Sequelize | Drizzle ORM | Mongoose
Deployment & Cloud
Vercel | Netlify | Railway | Render | Cloudinary
Tools & Platforms
Git | GitHub | GitLab | Refine | CodeRabbit | Site24x7 | Arcjet | Google Analytics

Soft Skills
Team work | Communication | Attention to details | Team collaboration | Problem-Solving & Critical Thinking

PROFESSIONAL EXPERIENCE

ROWMINI | Amman, Jordan (**Freelance**)
Frontend Developer Oct 2024 – June 2025

- Build a responsive web interfaces for many real projects that solve problems in our days. like clinic beauty and other websites for lawyers and Tax consulting.
- Optimize **SEO** for multiple websites to enhance appearance on major search engines. Implemented best practices including keyword strategy, metadata optimization, and performance improvements.
- Manage Routing and user interactive with website and link the user interface with backend endpoints using libraries like **axios**

FutureAdvanced internet solutions |Amman,Jordan (**Internship**)
Frontend Trainee Dec 2023 – Jan 2024

- Building dashboards using React and handle some event interactive to allow user manage data (Add, Modify, Delete).
- Code revision and solve problems to make websites work in a perfect way.

PROJECTS

Lazer & Beauty Dashboard
React.js, JavaScript, CSS – Oct 2024 to Feb 2025

- Built a responsive clinic dashboard to manage devices, diseases, and doctors.
- Developed an admin panel to manage users, clinics, devices, doctors, and services.
- Implemented modular components and API integration for dynamic data handling.

Ashia'a E-Commerce Platform **https://ashiaa.netlify.app/**

React.js, React Hooks, SEO – Dec 2024 to Feb 2025

- Developed a seamless and responsive SPA with optimized user flow and modern UI/UX.
- Managed state and events using **React Hooks** for improved interactivity
- Applied **SEO** best practices to enhance search engine visibility

Foodies Meal Planner **https://foodies-next15.netlify.app/**

Next.js, SSR, File-based Routing – Jan 2025 to Mar 2025

- Configured file-system routing and implemented server-side rendering (**SSR**)
- Developed features like adding meals and dynamic interactions using client-side components
  Promoted component reusability and handled routing errors (404, not-found) gracefully

Booking Meeting Rooms Website **https://github.com/JebrealAldrani/Booking-App**

Next.js 15, Typescript – Mar 2025 to Aug 2025

- **Next.js 15** to benefit from **SSR**, **SEO** and another features
- **Typescript** to reduce runtime errors
- **lucia** and **@lucia-auth/adapter-sqlite** third parties to build and handle secure authentication
  better-sqlite3 third party to let me write SQL queries and mutation data
- **luxon** third party for parsing, formatting and manipulating date/time
- **cloudinary** third party for store images in cloud service
- **react-icons** for SVG icons
- **sweet-alert2** beautiful, customizable pop-up alerts
- **react-toastify** toast notifications in React
- **uuid** to generates unique IDs for database records, bookings, etc

E-commerce & Admin Dashboard

Next.js 15 typescript, Shadcn UI – Sep 2025 to Oct 2025

- Developed a full e-commerce platform with a feature-rich admin dashboard to manage products, orders, and users. Utilized **Next.js 15** for server-side rendering (**SSR**), **SEO** optimization, and high performance.
- Employed **TypeScript** for type safety and to reduce runtime errors.
- Designed a modern, consistent UI using **Shadcn UI** and **Tailwind CSS v4**, ensuring a beautiful and responsive design system.
- Implemented **react-hook-form** with **zod** for powerful and type-safe form handling and validation.
- Used **zustand** for efficient global state management.
- Integrated **react-toastify** for elegant toast notifications and **lucide-react** for scalable SVG icons.
- Built admin tools and dashboards featuring **CRUD operations**, analytics, and responsive layouts for all devices.

EDUCATION

Tafila Technical University | Tafila, Jordan | 2025

Bachelor's of Computer Science: Artificial Intelligence & Data Science

CERTIFICATES

- **Next js 15 & React - The Complete Guide | Udemy**
- **Frontend Engineer with React | Manara**
- **Full stack developer | webtoon web space Co. & SHAI AI (React & Spring Boot)**
- **Vue - The Complete Guide (incl. Router & Composition API) | Udemy**

LANGUAGES

Arabic: Native **English**: Professional Working Proficiency
